

## Directions for Schoology:

\*\*Please note that PowerSchool has bought out Schoology. For some, if you try to log into the old way( [www.schoology.com](http://www.schoology.com) ) it will redirect you to <https://www.powerschool.com/solutions/unified-classroom/schoology-learning/> Still just click **login** and it will send you to the right place. \*\*

If you already have an account, simply log in and add the course code.

### Setting up a new account:

- 1) Go to: <https://www.powerschool.com/solutions/unified-classroom/schoology-learning/>
- 2) Go to REGISTER and click on STUDENT
- 3) Put in class code for your class
- 4) Put in student correct name, email (can be yours) or user name, DOB, password. This should be all you need to do. (There are some cases when you log in for the first time it will ask you for the zip code and school name: 27612 That One Math Guy)

### A few important details:

- 1) Please put in your students **REAL** name. With over 200 students, we do not have time to figure out who “Peachy Flamingo” or “Torchy Bird” are! It also messes up our alignment with Classmarker and the google doc where names are in ABC order and make it easy for us to transfer grades.
- 2) **Save your username and password!** I will not have them and can not access them. It is your responsibility to keep up with your log in information.
- 3) This is your **ONLY** access to all grades. Check it weekly once quizzes start.
- 4) **PLEASE** do not email Nate asking him anything about schoology accounts! He will only forward your email to me as I am the one who sets them up and deals with them throughout the school year. He does not handle this at all. I take the grades from Classmarker and transfer them to the google doc and then to Schoology.
