

Directions for Schoology:

If you already have an account, simply log in and add the course code.

If you have never used Schoology you will need to create an account:

- 1) Go to: www.schoology.com
- 2) Go to “sign up” and click on STUDENT
- 3) This will prompt you to put in the access code for the class
- 4) Then it will ask you for information: put in student name, email (can be yours) or user name, DOB, password. This should be all you need to do. (There are some cases when you log in for the first time it will ask you for the zip code and school name: 27612 That One Math Guy)

A few important details:

- 1) **PLEASE** save your username and password! I will not have them and can not access it on my end of schoology. It is YOUR responsibility to keep up with your log in information.
- 2) This is your **ONLY** access to all grades. Check it weekly once quizzes start.
- 3) **PLEASE** do not email Nate asking him anything about schoology accounts! He will only forward your email to me as I am the one who sets them up and deals with them throughout the school year. He does not handle this at all. (He records the grades on his google doc and I transfer the grades over to schoology.)

If you have any questions please email me: kebarlow@bellsouth.net
